

## 2747 siatur – the flexible silicon carbide series

# 2747 siatur – for perfect surface quality of fittings, garnishments and musical instruments

## Structure

Grit: silicon carbide  
Coating: electrostatic closed  
Bonding: resin over resin  
Backing: j-wt-cloth, cotton cloth  
Grit range: P060 - P120  
Backing: jj-wt-cloth, cotton cloth  
Grit range: P180 - P400

## Properties

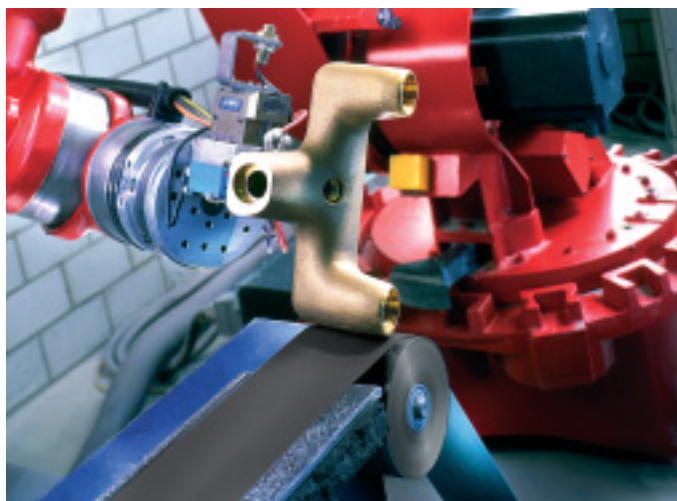

Removal rate: high  
Lifetime: long  
Flexibility: flexible/  
very flexible  
Application: medium  
Size coat with highly active additives

## Advantage

- ☑ high cutting performance
- ☑ cool cut (additives), hardly any discolouration of work pieces
- ☑ the surface quality of the machined workpieces is excellent, particularly for brass and copper alloys
- ☑ adapts very well to radii

## Application with grit recommendation

Machining brass and other fittings	060 - 400
Garnishments	060 - 400
Lighting fixtures	180 - 400
Musical instruments	180 - 400
