There’s fish. And then there’s fish.
There are flap discs. And then there are flap discs.

Salmon, Stingray and Snapper – specialist products for different needs.

**2824 siaflap Salmon**
A tool for series processing with very high strength.

**2824 siaflap Stingray**
A high-performance product for industrial needs.

**2824 siaflap Snapper**
An all-round tool for mechanical workshops and fitter’s shops.

Characteristics of the product

Long-life product, less preparation time, cost-effective
High performance due to zirconia alumina abrasive
The self-renewal principle of the product guarantees a consistent performance
Maintains a consistent abrasive surface throughout the life of the disc
cool cut due to «lamella» construction
consistent cutting speed due to the high form retention

**Structure**

- Grit: zirconia alumina/semi-friable aluminium oxide
- Disc: nylon/fiberglass
- Backing: cotton cloth
- Grit range: K036 – K120

**Main applications**

- performance grinding for high stock removal
- removal of welded seams and edge grinding
- work on burrs and rough casts
- ideal for surface grinding of small areas
- rust removal and cleaning

sia Abrasives – Your Key to a Perfect Surface

Our sia metal grinding system enables you to achieve absolutely perfect results on every type of surface.

sia Abrasives products are hall-marked by Swiss quality at every stage of production from the raw materials through to final conversion and by absolute precision both in manufacture and end-use. Our state-of-the-art production technologies guarantee an optimum level of quality consistency.

sia Abrasives stands for Swiss efficiency, reliability and delivery capacity, together with loyalty to all our partners.

sia coated abrasives give metalworking specialists the benefits of the 125 years of experience that sia Abrasives has gained in the realm of surface treatment, coupled with cutting-edge grinding solutions and on-going development of innovative new products.

At every stage in the creation of the sia metal grinding system, from initial development, through purchase of raw materials, to manufacture and conversion, sia Abrasives is fully-committed to the well-being of people and the environment and to conserving natural resources.

sia Abrasives has been certified in accordance with the ISO 14001 Environmental Management System since January 2004.
