

Technical data sheet

9170 siamop

Status:	Ok
Approval:	13.08.2019

Classification		Public series
Product type:		
Main industries:	General Fabrication	
Further industries:		

Product profile	
Grit type:	Aluminium oxide
Grit range (total):	
Backing:	Cotton fabric
Coating:	Electrostatic
Bonding:	Resin over resin
Special coating:	
Equipment:	

Properties		Technology
Removal rate:		
Lifetime:		
Finishing:		
Flexibility:		
Contact pressure:		

Advantages	
General Fabrication:	<ul style="list-style-type: none"> - Maintains a uniform abrasive finish until completely worn - Flap wheels adapt to the contours of the workpiece during use and can be profiled - Short set-up time

Applications	
General Fabrication:	<ul style="list-style-type: none"> - Fine sanding of surfaces - Fine sanding of profiles and contours - Applications in container and apparatus construction - Applications: profiles and pipes/tubes - Structuring and finishing

Material		
General Fabrication:	Non-ferrous metals Stainless steel Steel	<ul style="list-style-type: none"> ● Non-ferrous metal ● High-alloy steels ● Unalloyed / low-alloy steel

Application		Superordinate group	Subgroup
Cut:			

Details	
No suitability for:	
Sanding recommendation:	
Safety recommendation:	Observe the current valid safety recommendations at: www.sia-abrasives.com > Expertise > Safety

Communication			
Claim:	Flap wheels for structure finishing and fine sanding		
Copy:	The flap wheels of the 9170 siamop series ensure an even sanding pattern and a perfect finish during fine sanding of surfaces profiles, contours and pipes in fields such as container and apparatus manufacturing.
