

1913 siawat

The first choice for first-class wet sanding results

1913 siawat Aerospace

The first choice for first-class wet sanding results

As a leading wet use abrasive, the 1913 siawat aluminium oxide series has been producing outstanding results for years thanks to such outstanding properties as high stock removal rates, optimal water resistance, long life and flexibility.

- Very even sanding pattern
- Highly water resistant
- Highly adaptable to contours and shapes
- ► High performance for stock removal with good finish
- Can be used wet or dry

Product profile

Aluminium oxide P060 - P1200 Grit type: P1500 - P2500 Silicon carbide

Grit range: 60-2500

c-wt paper (FSC-certified) P800 - P2500 Backing:

P060 - P600 d-wt paper (FSC-

certified) Closed

Coating: Bonding: Resin over resin

Use
